ISC Council Meeting - Mar 17, 2025

Roll call: Matt McCormick, Bradley Lowekamp, Dženan Zukić, Jon Haitz Legarreta Gorrono, Nick Tustison, Andras Lasso

Committee Reports

NumFOCUS Code of Conduct

- New NumFOCUS Code of Conduct (CoC) took effect on Feb 1, 2025. Projects under older collaboration agreements can opt-in.
- Key update: creation of an independent NF CoC Working Group (WG) trained to handle CoC reports.
- NF CoC Details: https://numfocus.org/code-of-conduct
- GitHub Security Training Program: no update

NumFOCUS Project / Staff Meeting – Feb 2025

- Reviewed the NF 2025 Budget

NumFOCUS Transition

- Domains being transferred from Kitware to NumFOCUS

NumFOCUS CoC Opt-in/Opt-out Process

- Projects asked whether they will adopt the new NF CoC.
  Deciding on timing and enforcement approach.

NumFOCUS Small Development Grant / POSSEE

- ISC is considering resubmission of the Performance Benchmarking proposal.
- Small Development Grants: https://numfocus.org/programs/small-development-grants
- POSSEE program: https://possee.org

Project Proposals & Tooling

- Remote Module Tooling Projects (proposed):
  - Creation of module listing system
  - Standardized description format and status updates

- ○ Style consistency (like conda-smithy)
- ○ Tools to apply updates across repos
- ○ Leverage existing scripts/tools
- ○ Benchmarking framework improvements

Upcoming ITK Releases

- 5.4.3 – expected within the next two weeks
- 6.0a3 – in progress (remote module CI updates)
- Weekly ITK Python .dev releases – April (includes Linux ARM builds)
- 6.0b1 – scheduled after master → main branch renaming
